## COMPANY PROFILE

**PT. BATAM NIAGA PERKASA** was established in 30 January 2002. Over the years, the Company has carved a name in providing a one-stop reliable quality and technologically. **Honed to perfection** over time, provide good customer satisfaction and have been instrumental in re-newing partnership from world leading brand names in industrial products.

**As the one-stop supplier of superior Hydraulic and Industrial Hoses, Heavy/Automotive Engines Parts Equipment, On-Site Machine Tools, Material Handling and Instruments** we provide end-to-end business solutions, including designing and supplying the complete range. Our special focus is on the Oil Field and Shipbuilding / Marine industries where the keyword is in partnering our customers in meeting their aggressive products, services and design infrastructure needs.

**Build on integrity, trust and entrepreneurship**, the horizon looks promising for us. A partnership with us will unlock all your requirements for quality products and services. We aspire for our customers to embrace our product expertise and leverage our long standing position in this region to achieve real growth for their organizations.

### Company Missions

- Provides the highest quality products
- Provides excellence service
- Be competitively price
- To be the first choice in the Market

### Services

- Hydraulic Hose Assembly and Pressure Testing
- Tube bending
- Professional Hydraulic and Pneumatic Solutions

### Products

- Hydraulic Hoses & Fittings
- Quick Couplings
- Pressure Gauges
- Instrumentation Tube Fittings
- Valves
- Filters, Regulators, Lubricators
- Pneumatic Fittings & Accessories
- Industrial Hoses
- Hydraulic Pipes
- Pipe Clamps
- Tools & Accessories

## HYDRAULIC & INDUSTRIAL HOSE

- Size are available from 1/4" to 2" (Hydraulic Hoses and Fittings)
- Size are available from 1/4" to 4" (Industrial Hoses)
- Our brands available in Parker, Alfagomma, Aeroquip, Gates, Unigawa, Toyox and Winner
- Materials are available in steel and stainless steel 316
- Hydraulic compression fittings & hose couplings thread include DIN, SAE, BSP, JIC, NPT, ORS, METRIC, and JIS. Others are available upon requests

## HOSE FITTINGS FOR JIS/SAE

- Flared fittings designed in accordance with JIS and SAE standard
- Variety of end connection include MS/SAE straight thread, NPT/ISO male and female threads
- Size range from 1/4" (6mm) thru 2" (50mm) tubing, hose and piping connection
- Materials are available in stainless steel, brass and carbon

## INSTRUMENT THREAD FITTINGS

- Size are available from 1/8" to 2"
- Type are available in Straight, 45 degree, Elbow, Tee, and Cross
- Materials are available in SS316, brass, steel
- Thread are include JIC, BSP, NPT, ORS, SAE, JIS, KOMATSU
- Available 3000psi nipple and 6000psi due to request

## TUBE FITTINGS

- Size are available for inches size from 1/16" to 2"
- Size are available for mm size from 2mm to 32mm
- Standard materials are SS316, brass and monel, others are available upon request
- Variety of end connection and pattern

## VALVES

- Size are available from 1/4" to 3"
- Available types: reduce port, full bore, L-Port, T-Port
- Materials are available in SS316, SS304, brass, steel

## FLEXIBLE HOSE

- Stainless steel annular convoluted hose is closed pitch hose with a safety factor of 4:1 and a high working temp range of -200°C to 700 °C
- Suitable for hot and cold water, steam, oils and wide variety of chemicals and it can even be used in the clean room
- It comes with a standard length of 200mm (other lengths can be made to order)
- Available types: Unbraided, Braided, Double Braid
- Materials: Stainless steel convoluted core, grade 321 s31 or 304L, 316L

## FLANGES

- Range: SAE, Cetop & Square flanges
- Specification: NPT, BSPP, SWE & Buttweld (3000#, 6000#, 9000#)
- Materials: weldable steel & stainless steel

## FILTERS, REGULATORS & LUBRICATORS

- Available filters are air filter, oil filter, fuel filter
- Available in Parker, Donaldson, Fleetguard, Baldwin, Sakura brands

## PUSH IN FITTINGS & TUBINGS

**Push in Fittings**

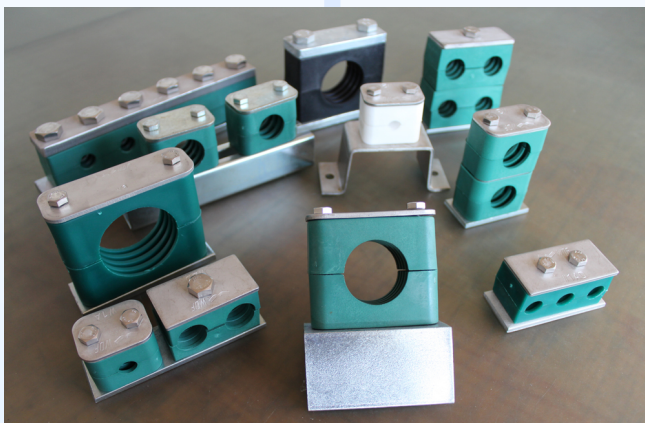

- Available size from 1/8" to 1/2" or 4mm to 16mm
- Working pressure up to 290 PSI
- End Connection NPT, BSPP, Tube O.D

**Tubbings**

- Available size (outer diameter) from 1/8" to 1/2" or 4mm to 16mm
- Working pressure up to 140 PSI

## TUBE CLAMPS

- Size are available for inches size from 1/2" to 8"
- Size are available for mm size from 12mm to 320mm
- Brands: Norma, Parker, Uni, Stauff and RSB
- Materials are available in SS316, aluminium, brass, steel

## PRESSURE GAUGES

- Available with or without panel mounting
- Calibration services available on request
- Brands: Wika, Gates

## RUBBER EXPANSION JOINT

## COUPLING & QUICK COUPLING

- Size are available from 1/4" to 2"
- Materials are available in SS316, brass, steel

## CHICAGO COUPLING & CLAMPS

- Male, female, blank and hose ends
- Triple connections
- Available from size 3/8" to 1"
- Available in brass, stainless steel 316

## HYDRAULIC PIPES

- Available in annealed and pickled or bright annealed surface

## TUBE PIPES / COILS

- Corrosion resistance
- Available in bright, polish and dull finish
- Japan and China origin
- Ranges in both inches and metric size

## SAFETY CABLE

- Hose to hose or hose to rigid outlet
- Size: 1/4" to 3"
- Length: 53 to 97 cm
- Easy to install and remove
- Highly resistant to rust corrosion
